

PRESS RELEASE

Santé Service puts its faith in HR Access.

Home-based hospital care service, Santé Service, puts its faith in HR Access, using its HRa Pack application.

May 15th, 2008 .

The Non Profit Organisation Santé Service, with a workforce of 750 FTEs and 1,200 beds is **the largest home-based hospital care organisation in the Ile de France region**. A growing organisation offering specialist services, Santé Services provides the full range of medical and nursing care prescribed by hospital doctors or independent practitioners in the patient's home, where they feel safe and at ease.

Santé Service has chosen HRa Pack, a dedicated solution for medium-sized companies from HR Access, to ensure it has a Human Resources Information System that will meet its administrative and payroll management needs. Santé Service's aim in implementing this project is to make sure it has a high-performance tool with a fast, reliable payroll system that can act as a central database for information regarding the organisation's overall staff.

The integration of HRa Pack will be managed entirely by HRa Services experts from HR Access.

With this new project, HR Access, with its 35 years' experience in human resources management for medium-sized and large companies, has further strengthened its leadership in the buoyant personal services sector and confirmed its leading role in the HR information systems market.

Many clients in the health sector have already put their faith in HR Access, including the Paris Hospitals Association AP-HP, Nancy University Hospital and the Gustave Roussy Institut
